Ratings current as of February 20, 2024.

Financial strength ratings do not apply to the principal amount or investment performance of the separate account or underlying investments of variable annuities.

While ratings can be objective indicators of an insurance company's financial strength and can provide a relative measure to help select among insurance companies, they are not guarantees of the future financial strength and/or claims-paying ability of a company and do not apply to any underlying variable investment options. The broker/dealer from which an annuity is purchased, the insurance agency from which an annuity is purchased, and any affiliates of these entities make no representations regarding the quality of the analysis conducted by the rating agencies. The rating agencies are not affiliated with the broker/dealer from which an annuity is purchased, the insurance agency from which an annuity is purchased, and any affiliates of these entities, nor were they involved in any rating agency's analysis of the insurance companies.
