

MarketProtector Advisory® III—rates

Fixed index annuities are long-term, tax-deferred vehicles designed for retirement, combining the advantages of a traditional fixed annuity with the potential for additional interest linked to the return of an index. Earnings are taxable as ordinary income when distributed. Individuals may be subject to a 10% additional tax for withdrawals before age 59½ unless an exception to the tax is met.

Rates effective December 1, 2025

The guaranteed minimum interest rate is currently 2.65%. The guaranteed minimum interest rate is declared each calendar year and will fall between 1% and 3%. Once a contract is issued, the guaranteed minimum interest rate will not change.

Fixed index annuities are also referred to as fixed annuities with index-linked interest in the contract.

¹ Jackson® declares caps/rates and any other interest factors at the beginning of each indexed option year and they are guaranteed not to change for the indexed option year. The guaranteed minimum annual reset point to point cap (PPAC) is 2.00% for the 5-year indexed option period and 3.00% for the 7-year indexed option period, regardless of index selected. The guaranteed minimum annual reset point to point performance trigger rate (PTCR) is 2.00% for the 5-year indexed option period and 3.00% for the 7-year indexed option period, regardless of index selected.

² Subject to certain restrictions and limitations, a higher cap, index participation rate, and fixed interest rate, as shown, may apply to premium of \$100,000 or more. Keep in mind, higher caps, index participation rates, and fixed interest rates will not be applied when the accumulation value of the contract reaches or exceeds \$100,000. Availability of higher caps, index participation rates, and fixed interest rates for premium of \$100,000 or more is subject to change.

Jackson® is the marketing name for Jackson Financial Inc. and Jackson National Life Insurance Company®.

Key terms

Annual reset point to point cap

The maximum amount of interest that the Company will credit to an indexed account option value for the annual reset point to point cap crediting method at the end of each indexed option year, expressed as a percentage. This limits the amount of interest that may be credited to an indexed account option value.

Annual reset point to point performance trigger

The amount of interest that the Company will credit to an indexed account option value for the annual reset point to point performance trigger crediting method at the end of each indexed option year if the index price on the last index determination date of the indexed option year is greater than or equal to the index price on the last index determination date of the previous indexed option year, expressed as a percentage

Jackson, its distributors, and their respective representatives do not provide tax, accounting, or legal advice. Any tax statements contained herein were not intended or written to be used and cannot be used for the purpose of avoiding U.S. federal, state, or local tax penalties. Tax laws are complicated and subject to change. Tax results may depend on each taxpayer's individual set of facts and circumstances. You should rely on your own independent advisors as to any tax, accounting, or legal statements made herein.

Contracts are issued with funds allocated to the fixed option. Premium allocated to indexed account options will be transferred to the indexed account options indicated on the application, or as otherwise instructed, on the first index determination date (typically every Friday, or the next business day if markets are closed on Friday) after receipt of all premium payments that are in good order.

The availability of each indexed option period is subject to change. Please remember that indexed option periods of longer duration may not be appropriate for everyone.

Maximum issue age is 85 for all index option terms.

MarketProtector Advisory III individual modified single premium deferred fixed annuity with index-linked interest option and market value adjustment (contract form numbers FIA265, ICC19 FIA265, FIA265-FB1, ICC19 FIA265-FB1) is issued by Jackson National Life Insurance Company (Home Office: Lansing, Michigan) and distributed by Jackson National Life Distributors LLC. This product is a fixed annuity that does not participate in any stock or equity investments and has limitations and restrictions, including a market value adjustment (MVA). During the indexed option period the annuity's cash withdrawal value may be less than the initial premium. Premium payments are flexible in the first contract year only, subject to contract minimums and maximums. Subsequent premiums will remain in a fixed account option until the first indexed option anniversary. No premium payments will be accepted after the first contract anniversary. For costs and complete details, contact your financial professional or Jackson.

The design of this annuity contract emphasizes the protection of credited interest rather than the maximization of interest rate crediting. Jackson issues other annuities with similar features, benefits, limitations, minimum caps/rates, and charges. Similar products with different features, limitations, and with either higher or lower caps/rates may be available through other broker/dealers. Discuss them with your financial professional or contact Jackson for more information. Fixed annuities with index-linked interest may not be suitable for everyone.

Products and features may be limited by state availability, and/or your selling firm's policies and regulatory requirements (including standard of conduct rules).
