## OVERVIEW OF THE CONTRACT

**Q. What is this Contract, and what is it designed to do?**

A. The Elite Access Advisory II Contract is intended to help you save for retirement or another long-term investment purpose through investments in a variety of investment options during accumulation phase. The Contract also offers death benefits to protect your designated Beneficiaries. Through the annuitization feature, the Contract can supplement your retirement income by providing a stream of income payments. This Contract may be appropriate if you have a long investment time horizon. It is not intended for people who may need to make early or frequent withdrawals or intend to engage in frequent trading in the Funds.

**Q. How do I accumulate assets in the Contract and receive income from the Contract?**

A. Your Contract has two phases:

- the accumulation phase, when you make Premium payments to us, and
- the income phase, when we make income payments to you.

**Accumulation Phase**

During the accumulation phase, to help you accumulate assets, you can allocate your Premium payments to a variety of Investment Divisions. Each Investment Division invests in a corresponding (mutual fund) Fund, each of which has its own investment strategies, investment adviser(s), expense ratios, and returns.

**A list of Funds and additional information about the Funds in which the Investment Divisions currently invest is provided in Appendix A: Funds Available Under the Contract.**

**Income Phase**

You can elect to annuitize your Contract and turn your Contract Value into a stream of fixed and/or variable income payments from us. (Variable payments depend on the performance of the Investment Divisions.) Currently, we offer income options that provide payments for (i) the life of the Annuitant(s), (ii) a specified period, or (iii) a combination of life and a specified period. We may offer other options, at our discretion, where permitted by state law. At the Income Date, you can choose to receive fixed payments or variable payments.

Please note that if you annuitize, your Contract Value will be converted to income payments and you may no longer withdraw money at will from your Contract. All add-on benefits terminate when you begin taking income payments.

**Q. What are the Contract's primary features and options?**

A. **Accessing your money.** Until you annuitize, you have full access to your money. You can choose to withdraw your Contract Value at any time (although if you withdraw early, you may have to pay charges due under any optional endorsement and/or taxes, including tax penalties). Certain withdrawals could substantially reduce or even terminate the benefits available under the Contract.

**Tax treatment.** Your Premium payments accumulate on a tax-deferred basis. This means your earnings are not taxed until you take money out of your Contract, such as when (1) you make a withdrawal; (2) you receive an income payment from the Contract; or (3) upon payment of a death benefit.

**Death benefits.** Your Contract includes a Basic Death Benefit that will pay your designated Beneficiaries your Contract Value on the date we receive all required documentation from your Beneficiary. The basic death benefit is payable during the accumulation phase. You can purchase optional add-on death benefits under the Contract that provide additional death benefits for an additional fee. The add-on death benefits may increase the amount of money payable to your designated Beneficiaries upon your death.

**Rebalancing.** At no additional charge, you can arrange to have us automatically reallocate your Contract Value among Investment Divisions periodically to maintain your selected allocation percentages. Certain restrictions apply.

**Dollar Cost Averaging.** Alternately, at no additional charge, you may select Dollar Cost Averaging, which automatically transfers a dollar amount or percentage of money periodically into the Investment Divisions (each a “Designated Option”) from any of the Investment Divisions (each a “Source Option”).

**Earnings Sweep.** At no additional charge, you can choose to have your earnings transferred automatically on a monthly basis from the JNL/WMC Government Money Market Investment Division into other Investment Divisions. Restrictions apply.

**Q. How is my Contract impacted by the deduction of advisory fees?**

**A.** The Contracts are available through third party financial professionals who charge an advisory fee for their services. This advisory fee is in addition to contract fees and expenses disclosed in this prospectus. Under certain circumstances, you may elect to have the advisory fee directly deducted from your Contract Value and automatically transmitted to your third party financial professional, subject to certain administrative rules. If you do elect to pay your advisory fees via direct deductions under our rules, we will not treat such deductions as withdrawals in two specific ways: (i) we will not report them as taxable distributions under your Contract; and (ii) any such deduction will not trigger a reduction in the value of any eligible add-on benefit you elected. It is important to note that deductions to pay advisory fees will always reduce the basic death benefit and your Contract Value on a dollar-for dollar basis, and they are otherwise subject to all contractual provisions and other restrictions and penalties, including minimum withdrawal requirements.

If you make a withdrawal to pay advisory fees without setting up direct deductions under our administrative rules (including the Add-On Benefit Advisory Fee Withdrawal Program, if applicable), your withdrawal will be treated as a standard partial withdrawal under the Contract. This means, in addition to your Contract Value and basic death benefit being reduced, we will reduce the value of any elected add-on benefit(s), and any such withdrawal will be subject to any applicable taxes and tax penalties.

Please note that the direct deduction of advisory fees, even under our rules (including the Add-On Benefit Advisory Fee Withdrawal Program) may negatively impact the add-on Earnings Protection Benefit (“EarningsMax”) by reducing the amount of earnings available for use under the benefit.

**BENEFITS AVAILABLE UNDER THE CONTRACTS**

**BASIC DEATH BENEFIT (automatically included with the Contract)**

**BUYING THE CONTRACT**

**Q. How do I purchase the Elite Access Advisory II® Contract?**

A. To purchase a Contract, you must complete an application. Your financial professional will submit your application, along with your initial Premium payment, to us. Acceptance of applications is subject to Jackson’s rules. We reserve the right to reject any application or initial Premium payment.

**Q. How much can I contribute and how are my Premium payments invested?**

A. You may allocate Premium payments in the available Investment Divisions.

	<b>NON-QUALIFIED CONTRACTS</b>	<b>QUALIFIED CONTRACTS</b>
<b>Minimum Initial Premium</b>	\$25,000 (under most circumstances)	\$25,000 (under most circumstances)
<b>Minimum Subsequent Premiums</b>	\$500 (\$50 for auto payment plan)	\$500 (\$50 for auto payment plan)
<b>Maximum Total Premiums</b>	\$2,500,000 (without prior approval) Jackson reserves the right to lower the maximum.	

You can pay additional Premiums at any time during the accumulation phase unless a specific add-on benefit or feature provides limitations. We can limit, restrict, suspend or reject any Premium payments for any reason.

**Q. When will my Premium payments be credited to my account?**

A. We will issue your Contract and allocate your first Premium within two Business Days (days when the New York Stock Exchange is open) after we receive your first Premium and all information that we require for the purchase of a Contract. If we do not receive all of the information that we require, we will contact you to get the necessary information. If for some reason we are unable to complete this process within five Business Days, we will return your money.

Subsequent Premium payments should be sent to one of the following addresses:

<b>Regular Mail</b> P.O. Box 24068, Lansing, Michigan 48909-4068	<b>Express Mail</b> 1 Corporate Way, Lansing, Michigan 48951
---	---

Subsequent Premiums are allocated on the Business Day that the Premium is received. Each Business Day ends when the New York Stock Exchange closes (usually 4:00 p.m. Eastern time).

**MAKING WITHDRAWALS: ACCESSING THE MONEY IN YOUR CONTRACT**

**Q. Can I access the money in my account during the accumulation phase?**

A. Until you annuitize, you have full access to your money. You can choose to withdraw your Contract Value at any time (although if you withdraw early, you may have to pay a monthly contract charge, charges due under any add-on benefit, and/or taxes, including tax penalties).

You can have access to the money in your Contract by making a partial or total withdrawal or by electing the Automatic Withdrawal Program. Withdrawals will reduce the Contract Value of your Contract (including the amount of the death benefit). However, withdrawing the Contract Value of your Contract below a certain level will terminate your Contract.

Certain benefits may limit withdrawals under the Contract. Certain withdrawals could substantially reduce or even terminate the benefits available under the Contract.

**Q. Are there limitations and consequences associated with taking money out of my Contract during the accumulation phase?**

A. Yes. These limitations and consequences include:

<b>Limitations on withdrawal amounts</b>	The minimum withdrawal amount is the lesser of \$500 or, if less, the entire amount in the applicable Investment Division. The minimum withdrawal is \$50 under the Automatic Withdrawal Program.
<b>Charges and taxes</b>	As described above, when you take out money, there may be a monthly contract charge, charges due under any add-on benefit, and applicable taxes.
<b>Negative impact of withdrawal on benefits and guarantees of your Contract</b>	A withdrawal may have a negative impact on certain standard benefits or add-on benefits that you may elect. It may reduce the value of or even terminate certain benefits.

**Q. What is the process to request a withdrawal of money from my Contract?**

A. You can request a withdrawal from the Contract at any time before the Income Date. To request a partial or total withdrawal, you can send a written request in Good Order to one of the following addresses:

<b>Regular Mail</b> P.O. Box 24068, Lansing, Michigan 48909-4068	<b>Express Mail</b> 1 Corporate Way, Lansing, Michigan 48951
---	---

Generally, for partial or total withdrawal requests received in Good Order before the end of the Business Day, we will process your request that day. If we receive your request in Good Order after the close of the end of the Business Day, your request will be processed the next Business Day. Generally, Jackson will pay the withdrawal proceeds within seven days of a request in Good Order.

**Q. Can I access the money in my account during the income phase?**

A. The income phase of your Contract occurs when you begin receiving regular income payments from us. You can choose an income option and the date income payments begin (subject to a maximum age). All of the Contract Value must be annuitized. If you annuitize, you may no longer withdraw money at will from your Contract. However, under income options with a specified period, the Beneficiary may request a lump sum payment subject to a commutation fee.

**EXAMPLE**

The table below is intended to help you compare the cost of investing in the Contract with the cost of investing in other variable annuity policies. These costs include transaction expenses, annual Contract expenses and annual Fund expenses. The Example assumes that you invest \$100,000 in the Contract for the time periods indicated. The Example also assumes that your investment has a 5% return each year, and assumes the most expensive combination of annual Fund expenses and add-on benefits available for an additional charge (using the maximum possible charge). The Example does not include any advisory fees paid to third party financial professionals from Contract Value or other assets of the Owner. If such advisory fees were reflected, costs would be higher. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>If you take a total withdrawal of your Contract Value at the end of the applicable time period</b>				<b>If you annuitize at the end of the applicable time period</b>				<b>If you do <u>not</u> take a total withdrawal of your Contract Value</b>

The following is a list of Funds (all Class A shares) available under the Contract, which is subject to change, as discussed in the prospectus. Certain broker-dealers selling the Contracts may limit the Investment Divisions that are available to their customers.
