OVERVIEW OF THE CONTRACT

Q. What is this Contract, and what is it designed to do?

A. The Jackson Retirement Investment Annuity Contract is intended to help you save for retirement or another long-term investment purpose through investments in a variety of investment options during the accumulation phase. The Contract also offers death benefits to protect your designated Beneficiaries. Through the annuitization feature, the Contract can supplement your retirement income by providing a stream of income payments. This Contract may be appropriate if you have a long investment time horizon. It is not intended for people who may need to make early or frequent withdrawals or intend to engage in frequent trading in the Funds.

Q. How do I accumulate assets in the Contract and receive income from the Contract?

A. Your Contract has two phases:

- the accumulation phase, when you make Premium payments to us, and
- the income phase, when we make income payments to you.

Accumulation Phase

During the accumulation phase, to help you accumulate assets, you can allocate your Premium payments to:

- a variety of Investment Divisions. Each Investment Division invests in a corresponding (mutual fund) Fund, each of which has its own investment strategies, investment adviser(s), expense ratios, and returns; and
- a variety of Fixed Account Options, which offer a guaranteed fixed interest rate for a specified period. The Fixed Account Options are not available if you elect certain add-on benefits.

A list of Funds and additional information about the Funds in which the Investment Divisions currently invest is provided in Appendix A: Funds Available Under the Contract.

Income Phase

You can elect to annuitize your Contract and turn your Contract Value into a stream of fixed and/or variable income payments from us. (Variable payments depend on the performance of the Investment Divisions.) Currently, we offer income options that provide payments for (i) the life of the Annuitant(s), (ii) a specified period, or (iii) a combination of life and a specified period. We may offer other options, at our discretion, where permitted. At the Income Date, you can choose to receive fixed payments or variable payments.

Please note that if you annuitize, your Contract Value will be converted to income payments and you may no longer withdraw money at will from your Contract. All add-on benefits terminate when you begin taking income payments.

Q. What are the Contract's primary features and options?

A. **Accessing your money.** Until you annuitize, you have access to your money. You can choose to withdraw your Contract Value at any time (although if you withdraw early, you may have to pay a contract maintenance charge, charges due under

any add-on benefit, a Market Value Adjustment, and/or taxes, including tax penalties). Certain withdrawals could substantially reduce or even terminate the benefits available under the Contract.

Tax treatment. Your Premium payments accumulate on a tax-deferred basis. This means your earnings are not taxed until you take money out of your Contract, such as when (1) you make a withdrawal; (2) you receive an income payment from the Contract; or (3) upon payment of a death benefit.

Death benefits. Your Contract includes a Basic Death Benefit that will pay your designated Beneficiaries your Contract Value on the date we receive all required documentation from your Beneficiary. The basic death benefit is payable during the accumulation phase. You can purchase an optional add-on death benefit (“Return of Premium Guaranteed Minimum Death Benefit”) under the Contract that provides additional death benefits for an additional fee. This add-on death benefit may increase the amount of money payable to your designated Beneficiaries upon your death.

Rebalancing. At no additional charge, you can arrange to have us automatically reallocate your Contract Value among Investment Divisions and the one-year Fixed Account Option (if currently available) periodically to maintain your selected allocation percentages. Certain restrictions apply.

Dollar Cost Averaging. Alternately, at no additional charge, you may select either (i) Dollar Cost Averaging, which automatically transfers a dollar amount or percentage of money periodically from the one-year Fixed Account Option or any of the Investment Divisions into the Investment Divisions and other Fixed Account Options, or (ii) Dollar Cost Averaging Plus (DCA+), which automatically transfers a dollar amount or percentage of money periodically from the DCA+ Fixed Account Option to Investment Divisions or other Fixed Account Options. Certain restrictions apply.

Earnings Sweep. At no additional charge, you can choose to move your earnings from the one-year Fixed Account Option, if currently available, and the JNL/WMC Government Money Market Investment Division to the Investment Divisions. Restrictions apply.

Capital Protection Program. At no additional charge, you can elect to have us allocate enough of your Premium to the Fixed Account Option you select at issue to assure that the amount so allocated will equal, at the end of a selected period, your total original Premium paid. Restrictions apply.

Q. How is my Contract impacted by the deduction of advisory fees?

A. Currently, we permit you to deduct advisory fees directly from your Contract Value in order to pay third party financial professionals. This advisory fee is in addition to Contract fees and expenses disclosed in this prospectus. If you elect to pay the advisory fee from your Contract Value, this deduction may reduce the basic death benefit and may be subject to federal and state income taxes and a 10% federal penalty tax. In order to avoid negatively impacting your add-on benefits, we do not permit the deduction of advisory fees from your Contract Value if you have elected any of the available add-on benefits.

MAKING WITHDRAWALS: ACCESSING MONEY IN YOUR CONTRACT

Q. Can I access the money in my account during the accumulation phase?

- A. Until you annuitize, you have full access to your money. You can choose to withdraw your Contract Value at any time (although if you withdraw early, you may have to pay a contract maintenance charge, charges due under any add-on benefit, a Market Value Adjustment, and/or taxes, including tax penalties).

You can have access to the money in your Contract by making a partial or total withdrawal, by electing the Automatic Withdrawal Program, or by electing a Guaranteed Minimum Withdrawal Benefit. Withdrawals will reduce the Contract Value of your Contract (including the amount of the death benefit). However, withdrawing the Contract Value of your Contract below a certain level will terminate your Contract.

Certain benefits may limit withdrawals under the Contract. Certain withdrawals could substantially reduce or even terminate the benefits available under the Contract.

Q. Are there limitations and consequences associated with taking money out of my Contract during the accumulation phase?

- A. Yes. These limitations and consequences include:

Limitations on withdrawal amounts	The minimum withdrawal amount is the lesser of \$500 or, if less, the entire amount in the applicable Investment Division. The minimum withdrawal is \$50 under the Automatic Withdrawal Program.
Charges and taxes	As described above, when you take out money, there may be a contract maintenance charge, charges due under any add-on benefit, a Market Value Adjustment, and applicable taxes.
Negative impact of withdrawal on benefits and guarantees of your Contract	A withdrawal may have a negative impact on certain standard benefits or add-on benefits that you may elect. It may increase the charge for, reduce the value of or even terminate certain benefits.

Q. What is the process to request a withdrawal of money from my Contract?

- A. You can request a withdrawal from the Contract at any time before the Income Date. To request a partial or total withdrawal, you can send a written request in Good Order to one of the following addresses:

Regular Mail P.O. Box 24068, Lansing, Michigan 48909-4068	Express Mail 1 Corporate Way, Lansing, Michigan 48951
---	---

Generally, for partial or total withdrawal requests received in Good Order before the end of the Business Day, we will process your request that day. If we receive your request in Good Order after the close of the end of the Business Day, your request will be processed the next Business Day. Generally, Jackson of NY will pay the withdrawal proceeds within seven days of a request in Good Order.

Q. Can I access the money in my account during the income phase?

- A. The income phase of your Contract occurs when you begin receiving regular income payments from us. You can choose an income option and the date income payments begin (subject to a maximum age). All of the Contract Value must be annuitized. If you annuitize, you may no longer withdraw money at will from your Contract. However, under income options with a specified period, the Beneficiary may request a lump sum payment subject to a commutation fee.

EXAMPLE

The table below is intended to help you compare the cost of investing in the Contract with the cost of investing in other variable annuity policies. These costs include transaction expenses, annual Contract expenses and annual Fund expenses. The Example assumes that you invest \$100,000 in the Contract for the time periods indicated. The Example also assumes that your investment has a 5% return each year, and assumes the most expensive combination of annual Fund expenses and add-on benefits available for an additional charge (using the maximum possible charge). The Example does not include any advisory fees paid to third party financial professionals. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

If you take a total withdrawal of your Contract Value at the end of the applicable time period				If you annuitize at the end of the applicable time period				If you do <u>not</u> take a total withdrawal of your Contract Value			
1 Year	3 Years	5 Years	10 Years	1 Year*	3 Years	5 Years	10 Years	1 Year	3 Years	5 Years	10 Years

*Please note, although we show this cost for comparison purposes, the earliest you can annuitize this Contract is one year after the Contract's Issue Date.

The example does not represent past or future expenses. Your actual costs may be higher or lower.
